SUMMARY

Detail-oriented IT graduate with hands-on experience in technical support, system maintenance, hardware troubleshooting and network configuration through internship and academic projects. Skilled in supporting daily IT operations, managing system updates, maintaining ICT assets and assisting in web-based system development. Familiar with Linux environments, database management and cybersecurity fundamentals with strong problem-solving and communication skills.

EXPERIENCE

INTERN, IT SUPPORT & SYSTEM DEVELOPMENT | Jan 2026 — May 2026

Universiti Teknologi MARA (UiTM)

- Provided first-level IT support for hardware, software and system-related issues to ensure smooth daily operations.
- Installed, configured and maintained computer systems, network devices and peripheral equipment according to organizational standards.
- Performed routine system maintenance including antivirus updates, backup monitoring and software patching to maintain system integrity.
- Assisted in internal system development projects including SMPK and e-BK while supporting IT security and user access compliance.
- Maintained ICT asset records, technical documentation and inventory tracking to support operational efficiency.

EDUCATION

Politeknik Sultan Abdul Halim Mu'adzam Shah (POLIMAS) | Diploma in Information Technology (Digital Technology)

| May 2023 - Sep 2026

- **Relevant Coursework:** Computer Networking, Operating Systems, Database Management (MySQL), and Information Security.

Sekolah Menengah Kebangsaan Merbok | Sijil Pelajaran Malaysia (SPM)

| Jan 2018 - Dec 2022

SKILLS

- IT Technical Support
- Windows & Linux Administration
- System Maintenance & Backup Monitoring
- PHP & Laravel Development
